A Blast from the Past

By Peggy Savage

n case you hadn't noticed, things are getting a bit boring around here. The Covid-19 pandemic seems to be dragging on forever, and with it, our isolation. But don't forget. This Will End. We will get back to having a good time together. Many of us are looking forward to dining together, being cheerfully served Raul's fabulous fare at beautifully set tables in the dining room. There were parties, holidays, trips and events.

Look inside for more photos of good times at Samaritan Village, just to remember what we can look forward to again . . .

CHAPLAIN'S CORNER

here are so many things going on right now and I am having difficulty focusing. We have the election which is going to finally happen next week. Will the nastiness of the last few days end abruptly, or will there be continuing bickering about the results? I remember when we had the Gore-Bush election. Our granddaughter was born November 8 of that year and we planned to visit three weeks later. We kept joking about how we would have a president by then and so we could celebrate twice over. As you recall, there was still "chad counting" going on and Bush became president several weeks later. Makes me chuckle to hear people complain that we might have to wait a few days to know who our next chief executive will be. And makes me nervous to think of what shenanigans might happen during the time of waiting.

We are also struggling with the Coronavirus and its physical effects as well as the effects on how we live our lives. I have stashed masks in my sweater pockets, my pant pockets and my coat pockets. I don't want to be outside and suddenly remember that I am supposed to wear a mask. I guess I will have finally adjusted when I find myself inside my house with a mask on washing the dishes.

But seriously, I am grateful to all the people who do wear their masks outside. I feel safe going to Safe-way and Rite-aid knowing that I will not infect anyone, and no one will infect me. I have difficulty understanding those who say they have a right not to wear a mask and thus a right to infect others. To me, the mask is a sign of love for myself and for others. I pray for a vaccine to help us all be safe.

To be honest I do not find much humor right now in all that's going on. The stress of listening to our leaders talking back and forth with no concern about courtesy or truth has worn me out. It is possible to disagree and discuss with respect and decency and I hope we will return to that standard before the examples have become part of our whole country. I am especially concerned about the young people who will come to accept this behavior as standard. We need to remind them that this does not have to be the way we treat people, and we need to be sure that we are not treating people this way.

The election will be over, the cold weather will have us hunkering down by choice and not just because of the virus, and hopefully, when we emerge the world will have become kinder, more respectful and gentler. Always good to start practicing for those days now.

I wish you all a blessed Thanksgiving, a time to remember the "good old days" and work on how we can make the new days ahead a blessing to all.

NOVEMBER INDEPENDENCE DAY

"The right to vote is the basic right without which all others are meaningless. It gives people, people as individuals, and control over their own destinies." – Lyndon B, Johnson

By Patricia Smith

t's none of your business. I couldn't believe my best friend, Paulette, had said that to me. All I'd asked is who she'd voted for. Paulette taught a civics class at the local college and explained, "One of the principles of our democracy is privacy when voting to protect anyone from retaliation by

any person or political party. Therefore, it is none of anyone's business who anyone cast their ballot for."

That conversation was quite a few elections ago, but in today's contentious times it seems particularly wise and relevant.

"Life shrinks or expands in proportion to one's courage." - Anais Nin

Voting is, and has been, a serious matter to me. A few years ago, I got into a discussion with a gentleman here, it was an election year, and I was adamant about people voting. He reasoned it was a person's right not to vote. I asserted my zerotolerance position on the issue. As a granddaughter of immigrants, I'd heard the many hardship stories that drove them to leave their beloved homelands. It took guts and courage to come to this new place, the United States of America. They spoke no English and knew no one. They left, however, countries where they were persecuted and most likely faced death. For them America represented liberty and safety. What my grandparents, and others in the neighborhood, were most proud of was when their children (citizens) could first vote. In this arena, they were as good as any rich person. Amazing and wondrous!

I've learned a lot about our history, how long it took for Native Americans, women, and African Americans to get the right to vote. But now that by law all citizens have a right to vote, I explode when I think anyone would give up that right. Although the gentleman's argument was reasonable, I feel people who don't vote really care little about any issue they espouse are not very patriotic. I don't mind if people view the country differently, but they should put what they think on that ballot.

> "The right to vote is a terrible thing to waste." – Various immigrant ancestors

What was life like here, before the pandemic?

re you ready to hibernate for the winter?

If the news about the virus is right, we could be masked and avoiding social contact until April 2021! People who moved here and expected to get to know Samaritan Villagers had a rude awakening!

POETS CORNER

Passing Through

By Nick Nigro

The servant sun serves the tray of day, Rubs the back of the chilly wind, warms it to mellow air. It frolics about the room, bounds wall to wall, gambols on the bed , fends off the immobility of despair. You awake to the gentle intonations of robins and wrens, the rude intrusions of crows, brash tires upon asphalt, the pot-bellied gardener of littered arteries leaf-blowing leaves clump to clump. You crawl from bed a slow worm feet to floor, you stumble about like a gooney bird's landing event.

With cheeks to the breeze and watery eyes you chug on to wins and losses of the fray. When the globe has spun out another diurnal concern before dark looms again, and the day is fully tucked in to lay its head upon a black pillow, as trees purr leaf to leaf, the sky clicks on its million billion winking bulbs hanging bright on the branches of night, meteors flash like fireflies, you cannot know, you can only hope you've done the right, loved the all of this awkward, wonderful, indecipherable thing, this brief passion – life.

BOOK BLURB

By Margaret Parkerson

Kick and Fig had been down the hill path to the beach, intent on getting enough oysters clinging to the float log so that the family could add them to the shore dinner they planned.

We cousins had dug clams as well. The goal was a pot of Bouillabaisse.

Oh, the luxury of having books waiting to be read. One such was the Bloomsbury cookbook.

It was decided that perhaps their oyster feast would not be included as three people were served fifty raw oysters alongside brown bread and butter with lemon, pepper and vinegar as seasonings. A better guide was Elizabeth David's classic Mediterranean Food.

To accompany a classic bouillabaisse, she used a Provencal sauce for fish, Rouille.

A grilled red pepper was cleaned of burnt skin, rinsed and pounded with a garlic clove. A handful of breadcrumbs were soaked then squeezed dry and added to the red pepper. Four tablespoons of olive oil and a few spoons of fish stock created the perfect finishing flavors to family satisfaction.

Artists at Work

Featured Artist for November, VIC RUSSELL

Title: Amaryllis

Medium: Colored Pencil

While being stuck indoors early this year with nothing to do but watch this Amaryllis grow and blossom, I became fascinated by all the detail in the flower petals. I started making sketches in pencil and decided to do a drawing that concentrated on the fluid shapes, not the red color. The finished work looks like a flower carved from stone, something that would feel smooth to the touch. - Vic Russell
